# *Historic pier hall Meili*

Tastefully renovated in 2018/2019, the elegant pier hall Meili in Lucerne is the ideal venue for a group gathering or a welcome drink, prior to commencing a charter cruise on the lake. The grade listed building dates from the 1930s and was designed by the famed Swiss architect Armin Meili. Feel the vibe of that era and enjoy the fine views of the city and mountains. Thanks to the spacious and open ambiance, the pier hall allows you to breathe the fresh air of the lake and get in the mood for the ensuing event. Conveniently located right outside of the railway station, the pier hall is the ideal place to arrive by public transport or private vehicle, as nearby parking is also available. Start your event at the pier early and thereby allow everyone enough time and flexibility to arrive individually.

The historic pier hall Meili is suitable for aperitif events of up to 350 people and can only be combined with a boat rental! Please contact us for further details.

# *Our original events offer a lot of variety and help create lasting memories...*

*«A very special venue»*

We organize a special cruise every year and each time our participants look forward to the event. In addition to the landscape, they get to enjoy a program of lectures and get treated by the catering team and nautical crew. We had wonderful weather during our most recent sail and it was a beautiful day. It's a very special venue.

*«Something special, even for locals!»*

A cruise on Lake Lucerne never fails to fascinate, even if one has been there before. We recently experienced how much the locals from the region got out of their charter cruise, when we organized a company jubilee on the lake. The idyllic scenery, excellent catering and customized entertainment made it a great day out for everyone.
