INNOVATION MEETS TRADITION

The steamboat Gallia is set to become the world's first scheduled passenger ship powered by solar fuel from Synhelion—an innovative step that bridges tradition and sustainability. This environmentally friendly fuel is fully compatible with the over 100-year-old steam engine, positioning SGV as a pioneer in sustainable navigation.

Comfort & Technology on the Lake

Our ships offer a diverse range of facilities to ensure comfort and convenience throughout your journey.

This includes accessible restrooms, power outlets, and audio systems with radio and AUX connections, some also featuring Bluetooth connectivity. Additional technical equipment is available for presentations or seminars, including projectors, screens, flipcharts, and moderation materials.

Please note that the eMS Rütli does not have the following facilities: Invalid toilet, audio and presentation connections, catering infrastructure.

If you are planning a seminar or a large presentation, we recommend booking a professional event technician through our partner auviso for optimal technical support.

Taking responsibility for tomorrow

The Lake Lucerne Navigation Company (SGV) takes responsibility for the unique natural landscape surrounding Lake Lucerne. As a company firmly rooted in Central Switzerland, we rely on pioneering spirit and forward-thinking concepts to achieve a balance between economic efficiency, environmental protection, and social commitment.

Our diverse fleet, ranging from historic steamboats to state-of-the-art propulsion systems, creates unforgettable moments and ensures that our guests can enjoy the beauty of the region in a sustainable way. Together with strong partners, we promote integrated solutions that guarantee long-term and fair cooperation.

With passion and dedication, we are driving forward the reduction of our CO₂ emissions. The fully electric motor vessel Rütli and the already operating hybrid ships are the first steps toward climate-neutral navigation. Further projects, such as a hydrogen-powered ship and the use of innovative Synhelion solar energy technology, underscore our goal of setting new benchmarks as a pioneer in sustainability.

We are shaping the future—responsibly, sustainably, and with passion.

This is how enthusiastic our customers were

«THE PARTICIPANTS ARE STILL RAVING ABOUT THIS WONDERFUL EVENING ON LAKE LUCERNE.»

In spring 2023, we were able to enjoy a unique event experience for a staff event organised by the Lucerne University of Applied Sciences and Arts» Department of Business: We hired the motor vessel «Gotthard» from the Lake Lucerne Navigation Company. Planning this event for 180 people was extremely straightforward thanks to the professional support of the SGV team. Our wishes were always catered for and I always received very quick and friendly feedback. We were also warmly welcomed on board; the service and kitchen team spoilt us with culinary delights and even the sun made an appearance, although the weather forecast had predicted otherwise.

«I WAS PARTICULARLY IMPRESSED BY HOW SMOOTHLY EVERYTHING WENT ON THE SHIP.»

It was pleasing to see how well the various event components, from the entertainment to the catering, harmonised with each other, resulting in an unforgettable experience for everyone involved. I was particularly impressed by the modern facilities and the delicious food on the ship, which helped to make the participants feel comfortable and well looked after. The cooperation in the run-up to the event and at the event itself was always very professional and pleasant. I really appreciated the clear communication and quick response times. All needs and concerns were addressed, which ultimately led to a very simple and uncomplicated event.

«WE WERE ONCE AGAIN IMPRESSED BY THE FRIENDLINESS OF THE CREW.»

We at the Event- und Incentive-Agentur lucentive book the ships of the Lucerne Navigation Company exclusively for our events. This gives our events a special touch, as we benefit from the outstanding quality of service, the unique atmosphere and the impressive backdrop of Lake Lucerne. The team's commitment, coupled with their attention to detail, makes every trip an unforgettable experience for our customers. Working with the boat hire trio is extremely pleasant. Michèle Dubacher and her team are quick and competent when it comes to requests for quotations, questions about the boats, timing or discussing details. Their professional support plays a key role in ensuring that our events run smoothly. In August 2023, we had the pleasure of using the steamboat «DS Uri» exclusively for the staff outing of our client from the Basel region. We enjoyed a delicious lunch on board in glorious weather. We were once again impressed by the friendliness of the on-board staff. The highlight of this trip was

not only the exquisite food, but above all the fact that everything ran smoothly and our customer was extremely satisfied.

«WE CAN RECOMMEND THIS UNIQUE WEDDING LOCATION TO ANYONE.»

In beautiful weather and summery temperatures, we were able to enjoy a breathtaking trip on the steamboat Stadt Luzern together with our guests. From the uncomplicated organisation to the catering and the very charming crew team, everything was perfect. We will always have fond memories of our aperitif cruise and can recommend this beautiful and unique wedding location to everyone.
